

RTS Intercom Systems shows the KP 12 CLD 12-position color display keypanel at IBC 2009

September 2009
ST/MKT-COM

Straubing – RTS is proud to show the KP 12 CLD 12-position color display keypanel at IBC 2009. The 1RU KP 12 CLD is the latest addition to the revolutionary CLD color keypanel series by RTS. The keypanel includes several cutting-edge features designed to enhance capability and ease of use. The instinctive graphic interface is housed inside two full-color 4.2” LCD displays. The front panel also features conveniences such as a user-programmable button, one-touch listen volume adjustment on each of the 14 new multifunction keys, and a backlit keypad. Like all RTS products, the KP 12 CLD is designed with expansion in mind. The front-mounted USB port and modular rear panel allow for future upgrades that will keep the KP 12 CLD on the forefront of technology for years to come.

Features of the KP 12 CLD include:

Full color LCD displays

The new displays host a rich and intuitive graphic user interface that shows different keypanel functions with different colors and graphic icons.

Modern, modular design

The flat front panel is thoughtfully designed to fit easily into any control room or truck application. The back panel is optimized for future expansion.

Multi-directional keys

The keypanel features 14 multi-directional keys, 12 used for talk, listen, and emulation of traditional level control function.

Future expansion

The KP 12 CLD is designed to host for an expansion panel and optional connections to the matrix through current and future standard transmission formats.

Enhanced Features

The KP 12 CLD supports up to three auxiliary inputs, independent digital gain control for microphone sources, configurable audio routing and much more through an option board

DSP processing

Acoustic Echo Cancellation, Equalization, Mixing, Filtering, and Metering

USB

For future expansion and other planned interface features.

User programmable button

A user-programmable button (UPG-1) provides custom shortcuts to menu functions.

GPI expansion unit available

The GPI expansion unit provides additional connectors for Relay, Headset, Footswitch/Speaker, Mic In/Out, Auxiliary, and other functions.

The Bosch Group is a leading global supplier of technology and services. In the areas of automotive and industrial technology, consumer goods, and building technology, some 280,000 associates generated sales of 45.1 billion euros in fiscal 2008. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than 3.5 billion euros, or eight percent of its sales revenue, for research and development, and applies for over 3,000 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.
