September 2009
ST/MKT-COM

Straubing – RTS is proud to show the LCP 16 CLD Level Control Panel at IBC 2009.

The LCP 16 CLD Level Control Panel is the latest peripheral for the KP 32 CLD Color Display Keypanel by RTS Intercom Systems. The LCP 16 CLD provides direct "knob access" to the volume levels of AUX, sidetone, speaker, headset, and other functions of the KP 32 CLD. This adds convenience for the user by bringing one-touch volume control to functions that were otherwise embedded in software menus. The individual knobs can be custom assigned to adjust AUX, sidetone, speaker, headset, and other functions of the KP 32 CLD. The designation strip provides a clear indication of the assigned function. The LCP 16 CLD can be directly connected to KP 32 CLD Color Display Keypanels.
