- FWUT   V 3.3.0 or later
- DNS-SD   V 3.3.0 or later
- OMI   V 5.2.0 or later

Installation

To **install the DKP-3016**, do the following:

1. On the rear panel of the DKP-3016, plug the **AC power cord (A)** into the power connector on the back panel of the unit.

    IMPORTANT: Only one matrix connection may be active at a time.

2. Connect a **RJ-12, RJ-45 (USOC or 568B) or Ethercon cable (B)** with RTS cabling to the J8 FRAME connector on the rear panel.
    OR
    Connect an **CAT-5e cable (C)** to J11 ETHERNET connector on the rear panel.

    NOTE: For OMNEO channel setup, see the DKP-3016 User Manual.

3. Once the unit is cabled, plug the other end of **AC power cord** into the wall outlet or power strip.
